NOTICE OF APPLICATION
Southern California Edison Company's Request to Increase Electricity Rates
APPLICATION A.20-10-018

Why am I receiving this notice?

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for the customers in SCE's service territory. The application is requesting a total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in as discussed below.

If the CPUC approves this application, SCE will recover \$19 million in drought and environmental costs in rates over a one-year period beginning in 2022. \$10 million in deferred revenues will also be collected on an ongoing basis over the five-year phase-in period, starting in 2022 and ending in 2026. This will impact your bill.

Why is SCE requesting this rate increase?

SCE is requesting this rate increase to recover:

- Incremental Operations and Maintenance expenses due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan;
- Environmental related capital expenditures completed between 2012 and 2019; and
- Deferred revenues resulting from SCE's five-year revenue requirement phase-in proposal.

How could this affect my electricity bill?

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information on the Public Advocates Office, please call **1-415-703-1584**, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.

NOTICE OF APPLICATION
Southern California Edison Company's Request to Increase Water Rates
APPLICATION A.20-10-018

Why am I receiving this notice?

On October 30, 2020, Southern California Edison Company (SCE) filed with the California Public Utilities Commission (CPUC) SCE's Application No. 20-10-018 for authority to increase rates for water service on Santa Catalina Island (Catalina) and recover costs from water and electric customers. SCE is requesting a total of \$9.312 million in authorized revenues in its application.

If the CPUC approves this application, SCE will recover forecasted costs in rates over a five-year period beginning in 2022 and ending in 2026. This will impact your bill.

Why is SCE requesting this rate increase?

SCE is requesting this rate increase to recover:

- Operating expenses required to safely and effectively operate the Catalina water utility;
- Infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina; and
- Historical capital expenditures for water utility plant in service, not in authorized rate base, including a fair return on rate base;
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Deferred revenues resulting from SCE's five-year revenue requirement phase-in proposal.

How could this affect my water bill?

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026.

How does the rest of this process work?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

NOTICE OF ADVICE LETTER FILING
Southern California Edison's Filing to Decrease Water Rates
ADVICE LETTER 122-W

Why am I receiving this notice?

On November 2, 2020, Southern California Edison Company (SCE) submitted an Advice Letter 122-W with the California Public Utilities Commission (CPUC) to update the adopted annual water sales forecast¹ and provide an update on the status of the Water Revenue Adjustment Mechanism (WRAM) and Modified Cost Balancing Account (MCBA).

If the CPUC approves this advice letter, effective December 31, 2020, rates will be recalculated to reflect actual water consumption during Water Year (WY) 2021. This will impact your bill.

Why is SCE requesting this rate decrease?

In this advice letter, SCE proposes to update the adopted water sales forecast from 84.2 million gallons (MG) to 83.4 MG per year, a decrease of 0.8 MG or one percent. Additionally, SCE proposes to gradually payoff the net WRAM/MCBA balance as of September 30, 2020 and return the current over-collection to customers via a flat surcredit on the monthly service charge, over an 18-month period.

How could this affect my water bill?

If SCE's advice letter request is approved by the CPUC, the average residential bill with a 5/8" meter would decrease by approximately \$6.79 or 9% per month, \$6.08 or 8% for residential-CARE customers, \$10.90 or 6% for commercial customers, and \$10.44 or 10% for irrigation customers. Table I shows the current and proposed monthly meter service charges. Table II shows the estimated rate increase and average monthly bill for residential customers. Table III shows the estimated rate increase and average monthly bill for non-residential customers:

How does the rest of this process work?

This Advice Letter will be reviewed by staff in the Water Division of the CPUC. They will determine if the request is reasonable and determine if modifications are necessary.

Protests and Responses to Advice Letter 122-W

The deadline to protest this advice letter is **Monday, November 23, 2020**. Please include "Advice Letter 122-W" in any response or protest you submit.

The reasons for the protest can be one of the following:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or CPUC order, or is not authorized by statute or CPUC order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the CPUC in a formal proceeding;
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the CPUC).

If you would like to submit a protest or response about this advice letter, please write to:

California Public Utilities Commission
Water Division, 3rd Floor
505 Van Ness Avenue, San Francisco, CA 94102
Email: Water.Division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to SCE at the following address:

Southern California Edison Company
P.O. Box 800
Rosemead, CA 91770
Attention: Cooper Cameron, Regulatory Affairs
Cooper.Cameron@sce.com

Cities and counties that need Board of Supervisors' or Board of Commissioners' approval to protest should inform the DWA, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

Where can I get more information?

Customers with internet access may view and download SCE's advice letter on SCE's website by visiting www.sce.com/regulatory/advice-letters/pending. If you have technical issues accessing the documents through the website, please e-mail case.admin@sce.com for assistance and reference Advice Letter 122-W in your e-mail.
