Why am I receiving this notice?

On October 30, 2020, SCE filed with the CPUC Application No. 20-10-018 for authority to increase rates for SCE's Catalina Water Utility and recover costs from water and electric customers. SCE's cost recovery proposal will likely increase the electricity rates for SCE's system-wide electric customers in SCE's service territory.

The application is requesting an authorized base revenue requirement of \$9.3 million from Catalina water customers, to be phased-in over a five-year period from 2022-2026. SCE also requests a broader allocation of \$29 million in extraordinary drought and environmental costs for recovery from SCE's system-wide electric customers. A total of \$29 million in drought and environmental expenses, as well as deferred revenues from SCE's proposed five-year revenue requirement phase-in.

Why is SCE requesting these rate increases?

SCE is requesting this rate increase to recover its expenses, among other things, for:

- Increased operating expenses required to operate the Catalina Water safely and effectively;
- Routine capital infrastructure necessary to produce and distribute safe drinking water to customers and visitors to Catalina;
- Incremental Operations and Maintenance expense due to the recent historic drought and lost revenues due to the drought and implementing the Staged Water Conservation and Rationing Plan; and
- Environmental related capital expenditures completed between 2012 and 2019.

How could this affect my electricity bill?

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 550 kWh per month would increase by approximately \$0.29 or 0.2% per month in 2022.

How could this affect my water bill in Catalina Island?

If SCE's rate request is approved by the CPUC, there will be a five-year rate increase for SCE's Catalina water customers beginning in 2022. The average residential bill with a 5/8" meter using 1,466 gallons per month would increase by approximately \$29.03 or 40% per month in 2022 and up to approximately \$110.52 or 153% in 2026.

How does the rest of this process work?

This application has been assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing SCE's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information on the Public Advocates Office please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit PublicAdvocates.cpuc.ca.gov.
